The income reported to IRS for tax purposes may be adjusted for financial aid purposes. In some instances, the amount of income listed on the tax return includes income that is not counted for financial aid purposes. In addition, child support paid by the student/spouse/parent (whichever is applicable) is deducted from income because that money is not available for educational purposes or normal living expenses.

Please complete the following worksheet so that we can confirm the information that was reported on your FAFSA.
