KEEP REACHING FOR THE STARS

ABOUT THE UNIVERSITY OF CENTRAL FLORIDA

The University of Central Florida is a bold, dynamic research institution that is regularly ranked among the **nation's top 20 most innovative universities** by *U.S. News & World Report*. With more than 69,000 students, UCF is one of the largest universities in the United States and is ranked as **one of the best educational values in the nation** by *Forbes* and *Kiplinger*. The university benefits from a diverse faculty and staff who create a welcoming environment and opportunities for all students to grow, learn and succeed.

A FOUNDATION FOR SUCCESS

UCF and its **13 colleges** offer more than **230 degrees** at UCF's main campus, hospitality campus, health sciences campus and through multiple regional locations. The **1,415-acre main campus** is 13 miles east of downtown Orlando and adjacent to one of the top research parks in the nation. Other campuses throughout Central Florida include a **fully accredited College of Medicine at Lake Nona and UCF Downtown**, which opened in Fall 2019 and provides innovative urban education for high-demand fields such as digital media and health informatics. UCF's online-only programs include bachelor's degrees, graduate degrees and graduate certificates.

TOP-RANKED EDUCATION

UCF is an **academic, partnership and research leader** in various fields, such as optics and lasers, modeling and simulation, engineering and computer science, planetary science, business administration, education, hospitality management, health care and video game design.

TRANSFORMING FUTURES

UCF is the **leading producer of talent among Florida's universities**, awarding more than 18,000 degrees annually to Knights who go on to work in high-demand industries. Nearly 73 percent of our alumni stay in Central Florida because of the **ample opportunity to thrive as part of our region's workforce**. Economic impact figures estimate that with a UCF bachelor's degree, average annual earnings are \$25,500 higher than a Floridian with a high school diploma. Ultimately, UCF students get a 23.4 percent annualized return on their investment.

FROM THE PRESIDENT

Dear Graduates and Families:

Congratulations, Class of 2024. We are so very proud of you. Your optimism, determination, persistence and compassion are an inspiration to the entire UCF community.

The degrees we celebrate today are the fruits of your long labor, often under extraordinary circumstances. The effort you gave attending classes, discovering in labs, creating with faculty and classmates, and working through internships — they led you to this moment and to this new beginning.

Elements of today's commencement ceremony have their roots in the 12th century. You are part of an age-old tradition of scholarship, learning and creation. But you are executing this tradition in revolutionary ways. You are among the most accomplished, diverse and innovative graduates in history. You will develop the solutions, technologies, philosophies and relationships that will drive a better future. You will change the world like no generation before — I have no doubt.

Our graduates have joined a network of 382,000-plus alumni. Together, you will be ambassadors and supporters of this great university. The old saying is that there is power in numbers. I encourage you to use it wisely in service to those around you and to help those coming up behind you.

I would also like to give a special thank you to the loved ones of our graduates. Your support and encouragement contributed more to this milestone than you know. We are grateful to you.

When someone says, “Go Knights,” I always listen for the reply, “Charge On!” It's not just a cheer, it's our way of life and how we face the future.

In that spirit, **Charge On, Class of 2024!**

Alexander N. Cartwright, Ph.D.
President and Professor of Electrical
and Computer Engineering

CAREY SOBEL '09BA

*ENTREPRENEUR AND CHIEF MARKETING OFFICER,
 COASTAL INVESTMENT COMPANY*

Carey Sobel is a local entrepreneur with strong marketing and business development expertise as an owner, investor and consultant across multiple industries.

For the past 12 years, he served as chief strategy officer for his award-winning marketing agency that he sold earlier this year. He is an owner of Boss Group International, a mergers and acquisitions firm that helps people buy and sell businesses. The Business Brokers of Florida consistently recognize Sobel as one of the state's top brokers. He also serves as chief marketing officer for Coastal Investment Company, a private equity firm that has raised more than \$300 million in its first 36 months in business.

Sobel's professional honors include earning the *Orlando Business Journal's* 40 Under 40 Award as a rising star in business and UCF's 30 Under 30 Alumni Award. He also received the inaugural Young Alumni Award at UCF's Shining Knights Ceremony and the Entrepreneurial Alumni Award during the UCF College of Business Hall of Fame event. After years of service as chair of the College of Business Alumni Board, Sobel has joined the UCF Alumni Board.

A native of Philadelphia, Sobel lives in Orlando with his wife, fellow AlumKnight Lauren, and his children: Marley, Sloane and Lennon.

HONORARY DOCTORATE

Innovative, generous and a giant in the hospitality industry, Harris Rosen now celebrates 50 years as founder and president of Rosen Hotels & Resorts. Mr. Rosen took a chance on himself in 1974, purchasing his first hotel. It paid off. Now, the Rosen name stands tall on seven Orlando-area hotels, the UCF Rosen College of Hospitality Management and multiple foundations benefitting children in underserved communities, warriors taking on cancer, people recovering from disasters and residents learning to swim.

Mr. Rosen created the Tangelo Park and Parramore preschool programs which provide free preschool to children ages 2, 3 and 4 in those underserved communities. These initiatives have been lauded for preparing students as they start their educational journey. Once the students graduate high school, these programs provide college or vocational scholarships covering tuition, room & board and books.

In 2004, the UCF Rosen College of Hospitality Management opened its doors after generous donations of time and resources from Mr. Rosen, working alongside Dean Abe Pizam. The college now ranks as the nation's top hospitality school.

Mr. Rosen also created RosenCare, an innovative, award-winning insurance plan that gives associates and their dependents comprehensive coverage and pays for 90% of all medications. He also established the Rosen Medical Center, which offers associates superior medical and wellness programs.

Recently Mr. Rosen received the esteemed lifetime achievement award from the Association of Fundraising Professionals, Leadership Florida's Lifetime Achievement Award and the United Negro College Fund's (UNCF) Champion of Education award amongst others.

Baccalaureate Honors

Baccalaureate Honors are conferred on those students who complete a minimum of 48 semester hours at UCF. Honors awarded will be based on overall cumulative GPA including transfer credit.

Honors are distinguished as follows:

- *** *Summa Cum Laude* — students with 3.950 - 4.000
- ** *Magna Cum Laude* — students with 3.900 - 3.949
- * *Cum Laude* — students with 3.800 - 3.899

The asterisk (*) appears as indicated above next to the name of each graduate who may qualify for Baccalaureate Honors.

Because records for the final term are incomplete at the time the commencement program is printed and final term grades may affect relative rankings and overall GPA, indication in the program of graduation with Honors is presumptive rather than conclusive.

Baccalaureate Honors distinctions can also be referenced at:

COMMENCEMENT CEREMONY AND ACADEMIC REGALIA, AN EXPLANATION

The Academic Procession has descended from religious processions that came to include teaching faculties when universities were closely associated with the medieval church. The presence of a piper in American academic processions has become popular in recent years. The pipers for UCF's ceremonies are Ben Pugh and Eric Stein.

The procedure followed for the awarding of degree is based on a practice developed at the University of Paris almost 800 years ago. In those days, the bishop of Paris, like every other bishop, was responsible for local educational curriculum and degree granting. His authority in these matters, however, soon came to be disputed by the teachers. They asserted that only they could be the proper judges of the qualifications of the students. This threatened impasse was resolved by a compromise under which the teachers, or masters, judged the merits of the students and then recommended them to the bishop for their degrees. Today's ceremony includes a secularized version of that procedure. The dean of the college certifies that the student candidates are qualified to receive their degrees. The president then authorizes the awarding of the degree.

Academic heraldry in the form of academic dress reaches as far back as the earliest days of the oldest universities. Formal directives concerning the correct and proper wearing of academic regalia date back to the early 14th Century. In the United States, as a result of our English heritage, caps and gowns have been used since colonial times.

As heraldic devices such as shields, coats of arms and standards could identify a knight and his individual heritage, academic regalia can describe the academic origin and accomplishments of the wearer. Easily recognizable are holders of bachelor's, master's, and doctoral degrees. With the same glance, the trained eye may identify the university that conferred the degree as well as the individual's field of learning.

The shape and decorations of the gown are the keys to the highest degree earned by an individual. The gown for bachelor's has long pointed sleeves and is designed to be worn closed only. The master's gown has an oblong sleeve and is open at the wrist; the rear part of its oblong shape is square cut, and the front part has an arc cut away. The master's gown may be worn open or closed. The doctor's gown has bell-shaped sleeves, may be worn open or closed,

and may be most readily identified by its velvet facing down the front and by three velvet chevrons on each sleeve.

It is the hood, however, which is the most important and distinctive feature of American academic pageantry. Chevrons enable those attending an academic function to distinguish at a glance the wearer's academic heritage. The bachelor's hood, seldom seen in American academic circles, is three feet long with a two-inch edging of velvet. The master's hood is three and one-half feet long with a three-inch edging. The doctor's hood is four feet long with a five-inch edging.

The color of the hood's velvet edging represents the field in which the wearer earned his or her degree. Although black may be used for any area, colors denoting selected fields of learning are as follows at UCF and American universities: all Ph.D.s are edged in dark blue, while professional doctorates, such as the Ed.D., are edged in the color of professional discipline.

The hoods used by American colleges and universities are lined with silk in the official academic colors of the institution that conferred the degree. UCF graduates, for example, will wear hoods with linings of black and gold. Generally, a school's academic colors are identical to its athletic colors.

The academic regalia you see before you today can be traced directly back to the beginnings of the oldest colleges and universities. In 1885, there occurred a widespread student movement in America to wear caps and gowns at commencement ceremonies. The graduating students seemed to feel a need for significant and dignified apparel for the occasion. By 1895, widespread adoption of a uniform code by 95 percent of colleges and universities in the country gave America its own distinct academic regalia. At UCF, the baccalaureate tassel colors are representative of the college. In most cases it represents the discipline of each college below.

However, at any academic gathering, there usually appear regalia which cannot be fathomed by these guidelines. Some of these may be from foreign universities; others are from those American institutions that have preferred to remain with the European tradition of allowing each school to determine its own costume. The result is the academic regalia you see before you today.

THE UNIVERSITY MACE

During the Middle Ages, the mace was an effective weapon in battle, but as newer and more powerful military arms developed, it was transformed into a symbol of authority.

The earliest ceremonial maces were borne by bodyguards of 12th Century English and French kings. By the end of the 16th Century, they were used widely by officials of English cities and towns. Today, the ceremonial mace is found in the British Houses of Parliament and is frequently carried in ecclesiastical processions and in university convocations and commencement ceremonies.

The mace incorporates two symbols identified with the University of Central Florida. The top is cast in the shape of the star found over the Pegasus in the UCF emblem. Inside the star is a reproduction of the “Flame of Hope” sculpture near the John C. Hitt Library.

The mace is cast in bronze with three bronze UCF emblems inlaid at the crest of the rosewood staff. The center of the staff is engraved with the names of the presidents of UCF.

The creation of UCF’s mace was a collective effort by UCF art professor Jagdish Chavda, sculptor David Cambia and wood craftsman David Conway.

THE PRESIDENTIAL MEDALLION

The gold medallion worn by the university president at formal and ceremonial occasions marks the president as a distinguished scholar and administrator, the highest officer of the university, and one who strives to uphold the twin tenets established by its founders: Accent on the Individual and Accent on Excellence.

The medallion is embossed with the university seal showing the mythical Pegasus ascending toward a single heavenly star and the motto, Reach for the Stars. The seal serves as a visible reminder to each member of the university community to strive to reach individual goals. The president has been entrusted to maintain and develop an atmosphere in which these creeds can be realized. The presidential position represented by the medallion epitomizes the foundations and aspirations of the university that the president has pledged to uphold.

As the only UCF official who can formally award a degree, the president recognizes the graduates for meeting the standards of excellence set by the university and for reaching the point from which new ventures begin.

From the presentation of the first medallion in 1968 to charter President Charles Millican to the one worn today, the Presidential Medallion has remained a symbol of academic leadership and the legacy of those pioneers who launched a unique experiment in higher education.

HONORARY DEGREES AWARDED

Honorary degrees are conferred upon distinguished individuals in recognition of extraordinary achievement in scholarship and creativity, or in recognition of a lasting distinction in service to humanity, including meritorious contributions to the university.

The awarding of honorary degrees is a method by which the university expresses its ideals, reveals its character and recognizes exceptional attainments. The greatest recognition the University of Central Florida can bestow upon an individual is an honorary degree.
